Public Questions and Comments (Zoom Breakout):

- **What does MSA mean?**
 - Metro Statistical Area (Statistical methodology for City region that typically includes broader area (in this case Albany and a little bit out into the County). Only about 2% of population change is accounted for by MSA.)
- **I find the interactive online aspect to be user friendly/ Will you continue to use this poll format in other events? Or will we be able to do this online?**
 - Yes – at future events will be able to continue online polling. Would be great to add this to the website.
- **It would be great to be able to get Troy youth to weigh in – online tool might make this very accessible to them.**
 - Great idea. The team will look into getting polling online via survey monkey or another method to be able to poll youth through a youth survey. We will be working with schools to ensure youth involvement as well.
